DETAILED ACTION

Claims 1-14 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 6-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Wu et al. (Applied Physics Letters 2002). The instant claims read on reference disclosed compound, see compound (a) **TBBSF** in page 577, Fig. 1.

Duplicate Claims

Applicant is advised that should claim 1 be found allowable, claims 6-14 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). Claims 6-14 recite the intended use of the compound.

Allowable Subject Matter

Claims 2, 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
